

ENERGY VAMPIRES ARE LURKING IN YOUR HOME

Save energy in your home by locating energy vampires!

These are the electronics and appliances that consume energy even when they are not being used. **Circle the energy vampires below, and use the key to check your answers.**

CELL PHONE
CHARGER

OVEN

CABLE/SET TOP BOX

LAPTOP
CHARGER

DISHWASHER

LAMP

Answer key:
Cell phone charger, laptop charger, cable box

SAFETY TIP

Always carefully pull a cord out by its plug, never unplug an appliance by yanking on the cord! Yanking too hard could cause a cord to break which can cause a shock, fire, or worse. Take Pluggy's advice - "Don't pull my tail!"
